

# Series 74

## Venice

The Oslo Series 74 Venice is a stylish redesign of the Styleline type tracking system, this reinvented new track uses the "Easy Clip" bracketing system. Face fix brackets have cover plates to give a clean finish, hiding all screws.

The face fix bracket also connects to the draw wheel as an end return bracket on cord drawn tracks.

Not only does the modern design set a new benchmark for stylish elegance, it is versatile and strong, suitable for conventional and S-Wave curtains in both domestic and commercial applications. The track system can be bent at a 150mm radius or a continuous curve.

Gliders have UV resistant inhibitors and are low friction. Available in White, Black, Linished Silver and Linished Champagne.

### **Advantages:**

- Easy Clip brackets
- Bracket covers available
- On Site benders available
- Glides and Roller runners available
- Clear Wave runners
- Bendable – degree and continuous curve
