

Series 40

Roman

The Oslo Series 40 Roman and Austrian shade tracking system is designed for the discerning Interior Decorator and Architect and will enhance any home.

The main feature of the system is that the lift drums and shaft are concealed within a modern powder coated track profile.

The geared beta heavy duty controller has a lift capacity of 6kgs.

Universal brackets are used for both ceiling and wall fixing. Two types of brackets are available to suit your individual requirements.
