

# Series 59

## Flexi

**The Oslo Series 59 is a flexible "I" beam track designed to be bent on site by hand.**

**The flexibility of the Series 59 allows for installation into areas other tracks just won't go. With the ability for tight radius bending of as little as 50mm.**

**Made from high quality aluminium to ensure maximum strength and longevity.**

**Available in White with roller runners.**

### **Advantages:**

**On site bending by hand**

**Tight radius bending**

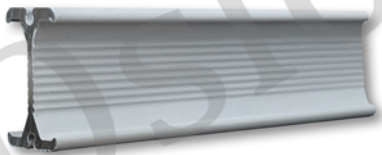

**Strong aluminium**

**Nylon roller runners**

**Internal joiners**
